Professional Summary

Results-driven Computer Science graduate and current MSc Artificial Intelligence and Data Science student with strong skills in software engineering, machine learning, and data analytics. Proficient in Python, Java, SQL, and modern software development tools. Seeking to contribute technical expertise and problem-solving skills.

Technical Skills

- Programming Languages: Python, Java, C/C++
- Web Development: HTML, CSS
- Databases: SQL, MySQL
- Software Engineering: Data Structures & Algorithms, OOP, SDLC
- Tools & Platforms: Git/GitHub, Docker, AWS (basic), CI/CD (GitHub Actions, Jenkins)
- Data & Analytics: Tableau, Power BI, Machine Learning, Big Data, IoT, AI

Education

Karunya University — MSc Artificial Intelligence and Data Science (2024–2026) | 86%
Avinashilingam Institute for Home Science and Higher Education for Women — BSc Computer Science (2021–2024) | 83%
SVGV Higher Secondary School, Karamadai — Higher Secondary (2020–2021) | 89%
Viswa Santhi Vidyalaya Matriculation School, Kotagiri — High School (2018–2019) | 84%

Projects

Sentiment Analysis on Amazon Alexa Reviews (May 2025)

- Built a machine learning model using Python to classify customer reviews into positive or negative categories.
- Applied NLP preprocessing, feature extraction, and trained supervised learning models.
- Enhanced insights for customer experience improvements and product strategy.

Portfolio Website

- Created a personal portfolio website using HTML, CSS.
- Implemented responsive design ensuring usability across devices.

Certifications

- Python for Everybody (Coursera)
- Introduction to Java Programming (Udemy)
- AWS Cloud Practitioner (Basic)
